

Dardan Security Services 2023

**Protecting brands and
reputations for over 50 years**

Founded in 1973 and still privately owned, Dardan Security retains the unique flexibility to react to both our clients' needs and emerging threats, risks, and technologies. We have built an incredible team of specialists to provide an evidence-based and holistic service.

Over the last 50 years, we have consistently delivered security solutions and partnered with organisations where their cultures are diverse, and their requirements have been challenging nevertheless ensuring results are delivered. We have valuable experience of a wide range of security and customer service issues, and designing cost-effective and optimum solutions based on individual needs.

Currently, we provide mobile solutions to more than 700 clients across over 4,000 individual locations with around 180,000 scheduled tasks per annum. We responded to over 7000 alarm responses in 2022. We also provide 14,000 hours of static guarding per week at 66 locations across the UK.

Dardan Security has enjoyed organic and sustainable growth, which is reflected in one of our core beliefs: to build impeccable relationships with our clients. This means not just delivering what our clients need but discovering more about their unique culture to learn where we can add value. This theme underpins everything we do, whether it's our front-of-house team making a great first impression or the assurance and peace of mind we provide with physical security.

We also strongly believe in working with and retaining clients that are aligned with our own values. Our clients have access to every level of our organisation, from our on-the-ground security officers through to our board of directors, so strong relationships are crucial for us.

per month*

Our Vision

To be a trusted partner for security solutions through intelligence, innovation, and influence.

Our Mission

Be ethical, be authentic, be agile, and be smart. We do our best and then do a little more, every time.

Globally aware and with international expertise, we have the skills and experience to respond to ever-evolving threats and changing situations.

We are agile, capable of adapting to the political, economic, and social climate. We monitor shifting legislative changes and tune into our clients' industries so that we understand their challenges and can add the most value.

Our operational depth is reflected by the security know-how of our management team. Inspired to stay one step ahead, we continually invest in research and core services to deliver state-of-the-art security solutions.

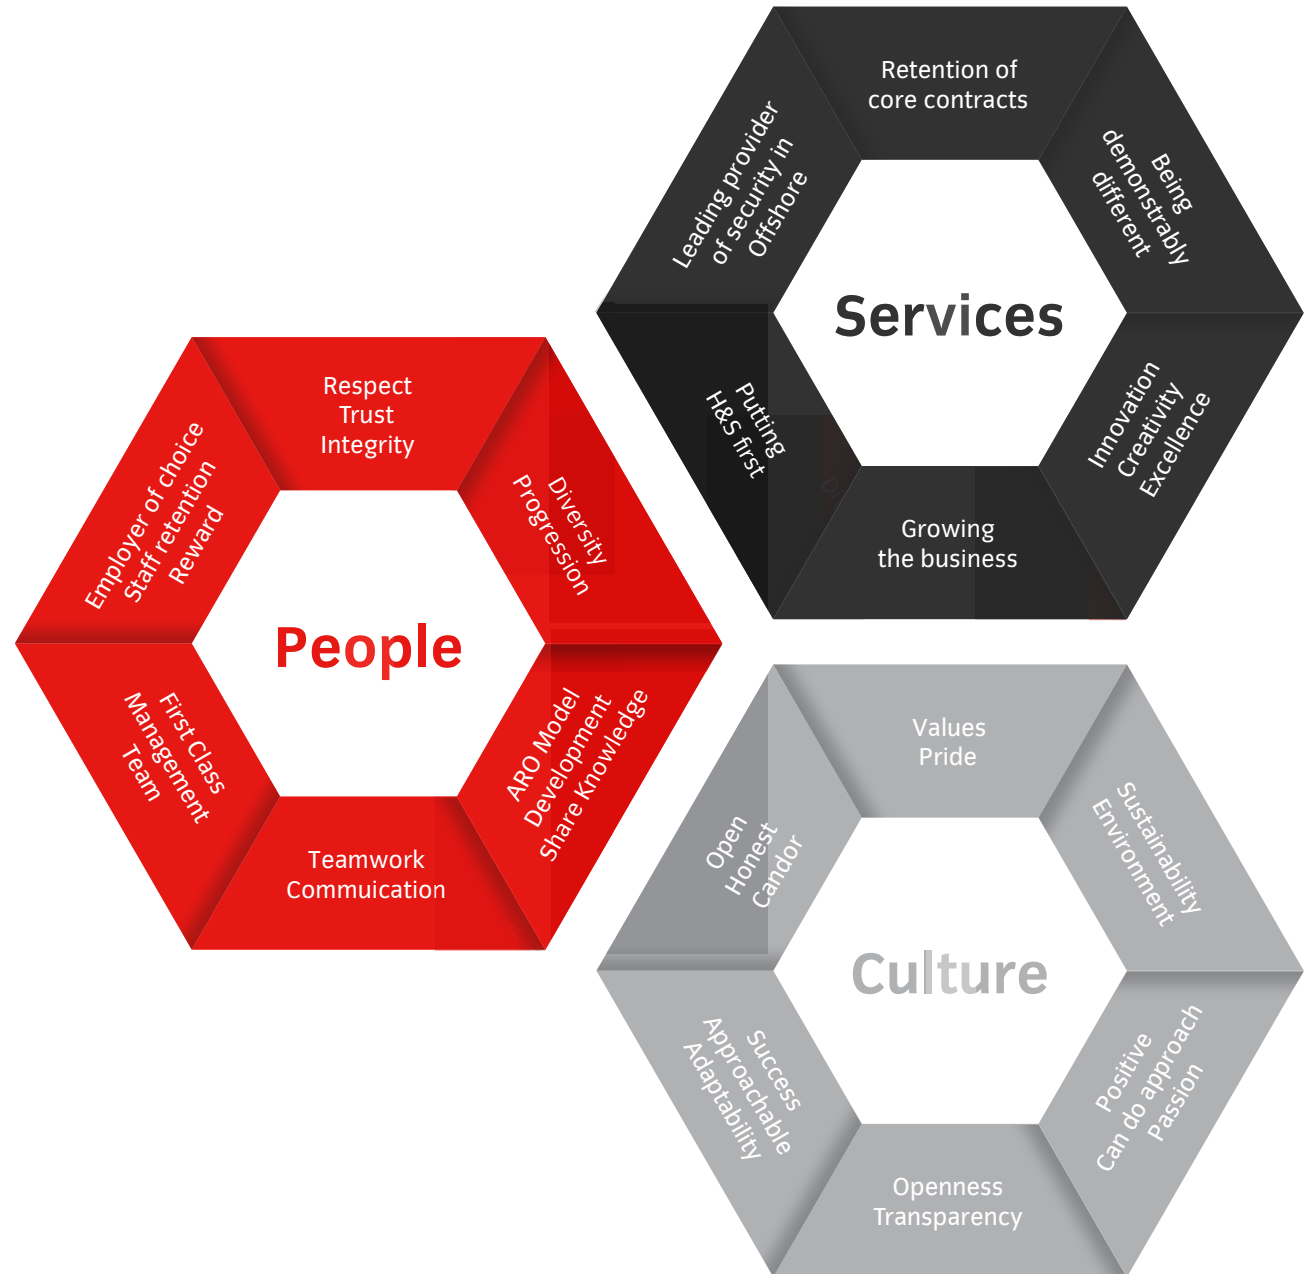

A man with a beard and a red scarf stands in front of a glass door with a decorative pattern. He is wearing a dark coat and has his hands clasped in front of him. The background is slightly blurred, showing the interior of the building behind the door.

We are committed to quality, reliability, and integrity and take pride in all that we do, aiming to exceed the expectations and needs of our clients. To achieve this, we have a clear vision and mission statement.

Our Core Values

Our values guide the way we work with our clients, customers, suppliers, within our communities, and with each other. In essence, our values are our identity. They contribute to the overall success of the company because they help us grow and develop and shape the way we work.

Our values are centred around our services, people, and culture.

Dardan's smart security solutions go far beyond safeguarding your buildings, property, and staff. We combine the best in technology and physical guarding to protect the most valuable asset of all: your reputation.

Our pedigree comes from many years of experience protecting a broad range of industries, including clinical, biotech, pharmaceutical, research and development centres, aviation, oil and gas, education, critical national infrastructure and corporate head offices and locations.

Memberships and Accreditations

SIA Approved Contractor Scheme

This scheme provides a recognised hallmark of quality within the private security industry. Dardan is accredited by the Security Industry Authority (SIA) and is ranked in the top five percent of security providers in the scheme.

ACS Pacesetter Approved Contractor Scheme

The Approved Contractor Scheme Pacesetter membership is exclusive to the top 15 percent of the 860 accredited contract security guarding companies in the UK. We are proud to have achieved this level of distinction. We're committed to retaining membership of this elite group and further improving our scores.

ISO Accredited Integrated Management System

We operate an integrated management system (IMS), accredited to ISO 9001:2015; ISO45001:2018 (health and safety), ISO 14001:2015 (environmental), and BS10800 (security management). Along with the specific British standards that Dardan complies with, the IMS helps maintain strong policy and process management and control. Policies are accessible to all staff through the employee intranet and our operational systems.

NSI Guarding Gold Status

The National Security Inspectorate (NSI) is recognised as the leading certification body for the security and fire protection industries in the UK. Gold Approval signifies that, in addition to compliance with industry-specific standards, a company operates a quality management system and is compliant with BS EN 9001.

Dardan is audited by the NSI twice a year, consisting of seven days between our offices and customer sites. We've held the NSI Gold Standard for Security Guarding as well as Health, Safety, and Environmental for over 15 years.

Cyber Essentials

Cyber Essentials is an effective, Government backed scheme that will help you to protect your organisation, whatever its size, against a whole range of the most common cyber attacks.

In addition, Dardan Security has membership of and accreditation from:

- CSSC Founding Company and Chair of Eastern Region
- City Security Council
- City of London Crime Prevention Association
- Chair of Cambridge Regional Security Forum
- TrAC Apprenticeship Member
- SafeContractor
- NASDU Accreditation
- Cyber Essentials Accreditation

We're Carbon Neutral!

In 2020, Dardan joined forces with eco-friendly business Make It Wild to annually offset 480 tonnes of CO₂e through the planting of 131 trees at Dowgill Grange in Summerbridge, North Yorkshire.

The new Dardan Security Woodland offsets our carbon footprint and creates a lasting legacy: we're protecting wildlife for the future and have been protecting brands and reputations for over 50 years!

Dardan has a five-year strategy to become Carbon Negative.
